

For CPA firms enrolled in the AICPA's Peer Review Program, a peer review is required every three years. Participation in this program applies to firms with an accounting and auditing practice. The type of review required depends on the nature of the engagements performed by the firm during their recent peer review year.

## OUR PRACTICE

Burdette Smith & Bish (BSB) is a full service CPA firm recognized by the AICPA as a qualified peer reviewer. We perform both system and engagement reviews; as well as pre-issuance and post-issuance reviews of financial reporting engagements for firms in the Washington D.C. metropolitan area and beyond. Our expertise allows us to provide your firms with a non-biased perspective on your practices and to help improve your firm's overall effectiveness and capabilities. All of our reviews are done with a commitment to providing practical recommendations, quality service, and technical expertise.

Obtaining optimum collaborative results from your next review requires selecting a reviewer that aligns with your firm's area of expertise to achieve maximum efficiency and insight. We would be pleased to assist you in your firm's next peer review. Contact Sarah DeVoe for more information.

### Burdette Smith & Bish LLC Industry Membership and Involvement:
